## NATIONAL EXCHANGE CARRIER ASSOCIATION, INC.'S PROPOSED 2006 MODIFICATION OF AVERAGE SCHEDULE FORMULAS

### PLEADING CYCLE ESTABLISHED WC Docket No. 05-347

**Comments Due: February 3, 2006**  
**Reply Comments Due: February 13, 2006**

On December 29, 2005, the National Exchange Carrier Association, Inc. (NECA) filed with the Commission its proposed modification of average schedule formulas for interstate traffic-sensitive and common line settlements, pursuant to section 69.606 of the Commission's rules.<sup>1</sup> In its filing, NECA proposes to revise the formulas for average schedule interstate settlement disbursements in connection with the provision of interstate access services for the period beginning July 1, 2006 through June 30, 2007.

Modifications to the average schedule formulas are based on a statistical sampling of the costs and demand of comparable cost companies. In its filing, NECA estimates that settlement rates would decrease by about 1.7 percent, assuming constant demand; however, any individual impact on an average schedule company will depend on its size and demand characteristics. NECA makes structural changes to the common line and special access formulas in the filing. As a result, some larger study areas will see a significant decrease in settlements, while many smaller study areas will see slight increases. The formulas also reflect the trend of reduced access minutes.
